Professional Summary

I am a highly motivated and results-driven Senior Frontend Developer with over 2 years of experience in HTML, CSS, JavaScript, jQuery, and Bootstrap 5. Currently working at EzeAD (Canada) as a Frontend Developer, I have played a key role in developing the frontend of Ezead.com, a large-scale platform with its own child sites. My work focuses on creating responsive, high-performance interfaces, optimizing user experiences, and collaborating with backend teams for seamless integration. Previously, I worked at EvonicSoft as a Team Lead, where I mentored junior developers and successfully led projects to completion. I developed and deployed multiple high-quality websites, ensuring clean, readable, and ThemeForest-approved code. I also contributed to multi-language website development, implementing seamless content translations into Arabic, French, and other languages. With a proven track record in strategic planning, creative problem-solving, and collaboration, I excel in fast-paced environments. My ability to manage tight deadlines, optimize workflows, and drive innovation makes me a valuable asset to any development team.

Experience

Frontend Development at EzeAD Company Canada

- Developed the frontend of Ezead.com, a large-scale web platform with multiple child sites.
- Built and optimized a responsive user interface using HTML, CSS, JavaScript, and Bootstrap to ensure seamless functionality across all devices.
